## East Perth/Fremantle Power Station Perth, WA

### Project Overview

Major Projects Group undertook the partial demolition of the East Perth/Fremantle Power Station for the Western Power Corporation. The scope included to clean and remove unsafe sections of heritage structures at the East Perth Power Station Site.

**Pic 1 - Salvage of Industrial Assets**

Salvage operation undertaken prior to total demolition. Here the internal turbine area can be seen.

***Pic 2 - Main Structure Demolition***

Main structure down and being processed. Steelwork downsized with a LaBounty 220 hydraulic shear.
